Beneficiaries	<ul style="list-style-type: none"> • young people • professionals who work with young people either in formal or non-formal education • partner organizations and their staff within the project.
General goal	The purpose of the project is to foster and enhance the quality of opportunities for youth participation in democratic life and social and civic engagement in communities through the connection of formal and non-formal learning by creating the conditions for the development of service-learning strategy in Central and Eastern European countries (CEE region). The project wants to create tools and conditions to implement service learning and to make it more inclusive.
Project aims	<ul style="list-style-type: none"> • SO1: to raise awareness about service-learning as a tool for fostering civic engagement, social inclusion, and diversity by

	<p>promoting and rewarding good practice examples of service-learning implementation in each partner country.</p> <ul style="list-style-type: none"> • SO2: to strengthen and expand the network of entities involved in the international awarding of service-learning projects and create the conditions for expanding the network in the future; • SO3: to build the capacities of supporting organisations and their partners in the service-learning implementation; • SO4: to develop tools and methodologies to facilitate the implementation of the service-learning strategy in cooperation with partners from non-formal and formal education • SO5: to develop tools to facilitate the reflection process as a key factor in learning from SL experience • SO6: to improve knowledge and to boost the use of the SL strategy in the CEE countries, and the possibilities for its development. • SO7: to raise awareness about service-learning strategy and materials supporting its implementation in Europe • SO8: to advocate for service-learning development on the local, national, and European level.
